 <p>Natural English Online is an online video lesson designed to help students acquire smooth speaking skills and to learn the spoken language of native speakers, consisting of more than 130 different videos each month. It includes conversational words and phrase practice, theme study, art, phonics, grammar, stories, and mini tests. Natural English Online is used in our lessons, and is available for you to practice English at home on your PC or smartphone.</p>			

•Program Points.

•Get familiar with English by repeating.

We take advantage of the important stage when children absorb sounds through listening and Mimicking; learning longer sentences by ear and repeating them. When they became interested in letters, we let them become aware of the letter and the sound relations.

•Literacy

They start practicing tracing Alphabet letters. We help them learn awareness of letter and sound associations and relationships. Also, they learn Phonics through singing songs and watching videos.

•26 letters sound(a-z)

We let them recognize the sounds of 26 letters and learn how to pronounce them as Short vowels(a-e-i-o-u) and Consonants (b-c-d-g-f-l-m-n-p-q-r-s-t-v-w-x-y-z).

•Role Play

Role play is very popular among our advanced preschool students. We become a florist, an optician and other characters based on our monthly themes and practice short phrases in English. Using objects adhered to in life such as maps and flags, we learn the basic English expressions and words in everyday practice.

•Activity

At this age children enjoy new challenges. We let children concentrate by providing more detailed work. We encourage children to express their intention in English as it is an age where understanding of their individuality becomes clearer.
